Comment. The bulk of the 20th Gds Mecz Regt and, probably, elements of the 265th Gds Mort Regt of the 8th Gds Mecz Div, which is also carried in the Flak Kaserne, left the installation for a one-daw exercise on 1C February. Compere with similar information

on troops leaving the Flak Kaserne on 1C February.

Another report indicated that elements of the units in Wurzen participated in exercises in the area south of Grimma on and after about 16 February.

The occupation strength of the Flak Kaserne which, as compared with previous reports, decreased could thus be accounted for.
